Please pray that my son and I find favor and are blessed with an affordable place to live. God knows our timeline and its only days away. I am extremely stressed and anxious and have just had back to back hip replacement surgeries. I need to be relaxed and focused on healing. My current salary is very low. I am grateful to have this job. I pray to find a position in my employer that will be higher pay with less stress upon my return to work. I also pray that I can be approved to get paid by the insurance company for my recovery. I ask Jesus to fill my life and my sons' lives with favor, prosperity and blessings. I pray for a reconciliation between my son and my dad. I pray for healing of my body, mind and spirit. I pray that God places Christians in my life so that I may make friends. I'm so lonely. Thank you and God bless.

Shantae -
Hello and thank you so much for taking the time to read my prayer request. Recently graduated from nursing school and currently preparing my Nclex exam. I have so many thoughts running through my head. I would like to cleanse my body, soul and spirit. I truly need guidance right now. I need to get my health back on track. I'm ready for change and to feel better about myself. I hope my new journey holds prosperity and great blessings along the way.
